

## NGARENANYUKI SECONDARY SCHOOL

Ngarenanyuki Secondary School was established in 1986 and is located in the Northern District of the Diocese of Meru. The school consists of Forms 1-4, has a total of 144 students, with some boarding and some non-boarding. Mr. Edward Nassary is Headmaster.

## NGARENANYUKI SECONDARY SCHOOL

Ngarenanyuki campus has several strong features. For example, they have 3 distinct laboratories for biology, chemistry, and physics. Their school farm includes 7 cows, 3 bulls, and 2 calves. They also have hydroelectric power, some solar panels, and a generator for when the electricity is cut off. They do struggle with having the funds to keep the above in good working order.

New dining hall under construction

## NGARENANYUKI SECONDARY SCHOOL

Ngarenanyuki offers its students the full academic curriculum required of secondary schools, as well as a pre-form 1 class to help prepare potential incoming students. Additionally, they have a fish project, farm projects, and sports and games—all of which ensure good health and happy students.

## NGARENANYUKI SECONDARY SCHOOL

Ngarenanyuki's top three needs at this time are:

1. **Student Scholarships**
2. **Up-to-date Computers**
3. **Teacher Salaries**

## NGARENANYUKI SECONDARY SCHOOL

The Diocese of Meru schools are showing continuous improvement in both facilities and student achievement, but still need support for:

- Improvements to aging buildings including solar and hydro power sources
- Instructional materials in all subject areas especially in science and computers
- Student scholarships

To **DONATE NOW**, please send a check made out to "Greater Milwaukee Synod", in the Note blank - Meru Education Fund and send to:

**Greater Milwaukee Synod, PO Box 341695, Milwaukee, WI 53234**
